A SONG FOR YOU

This song is inspired by the experiences of the 6th class pupils at Lucan Educate Together, as you navigate your final year of primary school during the COVID19 pandemic and prepare for your transition to secondary school. The song includes excerpts of conversations had with 6th class about your final year so far and what you look forward to doing. I wanted to give you a voice during an important time in your lives, through music. The song talks about what you will miss from your primary school days and the frustration COVID brought, but how at the end of the day, you were glad to be sharing these moments together. I hope you enjoy the song and that your last few days together are the best yet! Remember it's not the end, it's only the beginning!

Maria Carbonell

ABOUT ME

My name is Maria Carbonell. I am a singer-songwriter based in Dublin. I have studied songwriting at BIMM Dublin and also have a background in education and working with children. It was an absolute pleasure to work so closely with 6th class at Lucan Educate Together NS in order to create a piece of music for Ruaille Buaille Lucan Children's Music Festival, inspired by the children's journey this year. It was such a fun experience to write from their viewpoint and I feel honoured to be a part of this project.

SOMETHING TO THINK ABOUT

What are your best memories of final year?
What will you miss the most?
What are you looking forward to?
If you were to write a song about the last year...
...what would it be about,
...what story would you like your song to tell,
...who/what might be in it?
